**Right to Uninterrupted Enjoyment:** The common areas between sites **are not** to be used for loud games or gatherings as several surrounding sites are impacted. These types of games and games involving large crowds are to be played in areas that have been created for such activities. This being the ball field, the longhouse area, horseshoe pit and by the dog park.

**Rodents:** Some methods being used by shareholders to reduce rodent problems,

- tiding up potential nesting sites such as wood piles, sheds and under decks.
- clean barbecues after each use.
- not feeding peanuts to squirrels.
- using suet blocks to feed birds instead of loose bird seed.
- keep food left in trailers to a minimum and storing in glass containers.
- plugging all out building and trailer access points (wire mesh or steel wool work well).
- employing electric acoustic rodent deterrents.
- when not at your trailer, placing strong smelling products such as dryer sheets, Pine-Sol or peppermint oil.
- please consider using mouse, rat traps or live rodent traps rather than poison.
